MISSION · VISION · VALUES

OUR STATEMENT

01 **MISSION**

To provide comprehensive guidance that equips our clients with the tools and knowledge required to source chemical raw materials with confidence.

02 **VISION**

To build long-term partnerships in international business – measured in repeat supply, not single transactions.

03 **VALUES**

01	<i>AGILITY</i>	Responsive to shifting demand and market conditions.
02	<i>INNOVATION</i>	Continuous improvement across sourcing and supply.
03	<i>SPEED</i>	Prompt quotation, documentation and dispatch.
04	<i>RESPECT</i>	Fair conduct toward clients, suppliers and employees.
05	<i>DEDICATION</i>	Committed to every order, regardless of volume.

COMPANY OVERVIEW

WHO WE ARE

Rohe Waren Group has more than a decade of experience serving the global chemical industry. We supply and manufacture raw materials for the detergent, paper, perfume, food and coating sectors, combining international sourcing with in-house production in Egypt and Saudi Arabia. Our clients rely on us for consistent supply, tailored solutions, specification support and coordinated international logistics - the foundation of long-term partnerships.

INTERNATIONAL SUPPLY

Chemical raw materials delivered across multiple regions.

GLOBAL SOURCING

Established supplier network across Europe, the Gulf and Asia.

MANUFACTURING

Production lines in Egypt and Saudi Arabia.

PROCUREMENT SUPPORT

Specification guidance, documentation and logistics coordination.

FOOD

05

COATING

INDUSTRY 01

DETERGENT INDUSTRY CHEMICALS

SURFACTANTS

LABSA	Linear alkylbenzene sulphonic acid, primary anionic surfactant.
SLES	Sodium lauryl ether sulphate / foaming and cleaning surfactant.
CAPB	Cocamidopropyl betaine, amphoteric co-surfactant and foam booster.

BUILDERS & ALKALIS

SODIUM SULPHATE ANHYDROUS (SSA)	Filler and bulking agent in powder detergents.
CAUSTIC SODA PEARLS/FLAKES	Alkali used in neutralisation and saponification.
SODA ASH LIGHT/DENSE	Alkaline builder and pH regulator.

POLYMERS

ACRYLIC MALEIC COPOLYMER	Anti-redeposition and scale-control polymer.
SODIUM SALT OF ACRYLIC ACID HOMOPOLYMERS	Dispersant for inorganic particles in formulations.
CMC	Carboxymethyl cellulose / anti-redeposition agent and thickener.

PERFORMANCE ADDITIVES

OPTICAL BRIGHTENER	Fluorescent whitening agent for laundry powders and liquids.
COLOUR SPECKLES	Coloured granules for visual differentiation in powders.

INDUSTRY 02

PAPER INDUSTRY CHEMICALS

Additives supporting wet-end chemistry, surface performance and process control in paper and board production.

SIZING AGENT

Improves water resistance and controls liquid penetration in paper.

PAC

Poly aluminium chloride – retention, drainage and water-treatment aid.

OPTICAL BRIGHTENER

Increases perceived whiteness and brightness of the sheet.

SILICONE-BASED DEFOAMER

Controls foam in wet-end and coating processes.

CORN STARCH

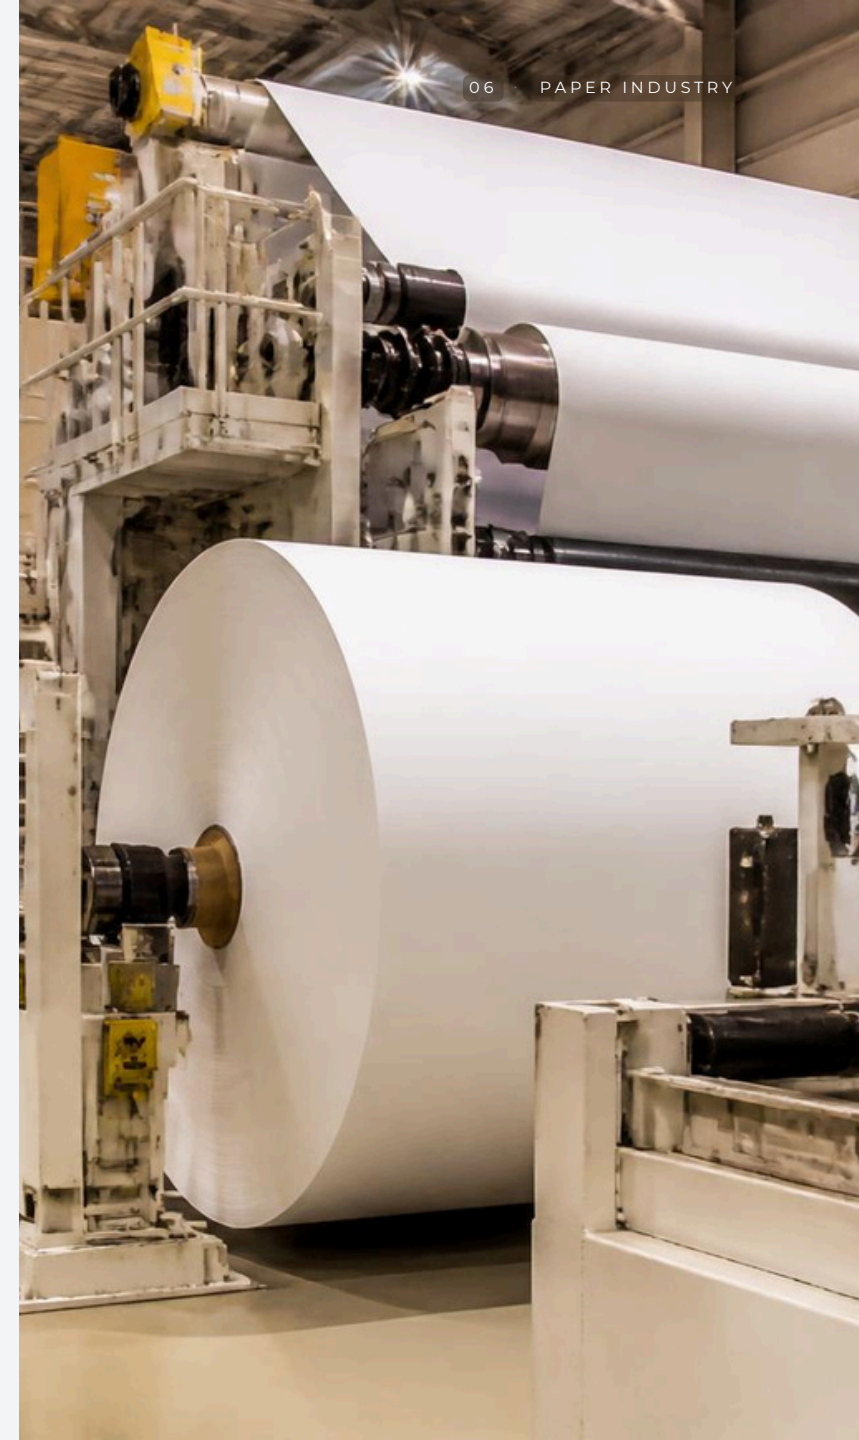

Strength additive and surface-sizing agent.

PACKAGING

Formats offered.

DOCUMENTATION

COA / TDS / SDS on request.

INDUSTRY 03

PERFUME INDUSTRY CHEMICALS

ESSENTIAL OILS

Natural aromatic raw materials for fragrance compounding.

ETHANOL

Solvent and carrier base for fragrance formulation.

ORIGINS & TYPES

Botanical origins and available grades.

PACKAGING

Drum and container formats.

INDUSTRY 04

FOOD INDUSTRY CHEMICALS

PHOSPHATES

SAPP – SODIUM ACID PYROPHOSPHATE	Leavening acid and processing aid.
TSPP – TETRASODIUM PYROPHOSPHATE	Sequestrant and texture-modifying agent.
STPP – SODIUM TRIPOLYPHOSPHATE	Moisture retention and sequestrant.
MSP – MONOSODIUM PHOSPHATE	pH regulator and buffering salt.
DSP – DISODIUM PHOSPHATE	Buffering and emulsifying salt.
TSP – TRISODIUM PHOSPHATE	Alkaline buffering and cleaning applications.
SHMP – SODIUM HEXAMETAPHOSPHATE	Sequestrant and dispersing agent.

ACIDULANTS

PHOSPHORIC ACID	Acidulant and pH control.
CITRIC ACID	Acidulant, antioxidant synergist and chelating agent.

Phosphates and acidulants supplied to food manufacturers and industrial processors.

GRADE CLASSIFICATION

Food-grade and technical/industrial grades are supplied as distinct product lines. Grade availability, specification and supporting documentation per product:

INDUSTRY 05

COATING INDUSTRY CHEMICALS

Resins and additives for solvent-based and water-based coating systems, supplied to paint and coating manufacturers.

SOLVENT-BASED

LONG ALKYDS	Air-drying resins for decorative and architectural coatings.
--------------------	--

MEDIUM ALKYDS	Balanced resins for industrial and general-purpose coatings.
----------------------	--

NON-DRY ALKYDS	Plasticising and modifying resins for coating systems.
-----------------------	--

RESINS

UNSATURATED POLYESTER RESINS	Base resins for composite and coating applications.
-------------------------------------	---

WATER-BASED EMULSION

STYRENE ACRYLIC	Binder emulsion for interior and exterior paints.
------------------------	---

HOMOPOLYMERS	Emulsion binders for water-based systems.
---------------------	---

ADDITIVES	Performance additives for emulsion formulations.
------------------	--

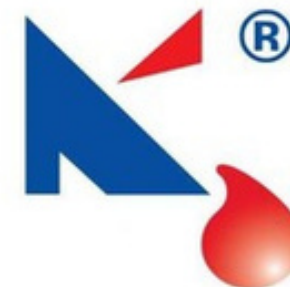

TECHNICAL SPECIFICATIONS

Solids content, viscosity, oil length and Tg values per grade.

PARTNERSHIPS

TRUSTED ACROSS INDUSTRIES

Supporting manufacturers and industrial
partners across international markets.

& MORE

ROHE**WAREN**

PERFEKTION IST MATERIE

BUILT AROUND PROCUREMENT PRIORITIES

WHAT PROCUREMENT TEAMS NEED. HOW WE DELIVER.

01

MANUFACTURING CAPABILITY

In-house production lines in Egypt and Saudi Arabia.

02

INTERNATIONAL SOURCING

Established supplier network supporting products outside our own production scope.

03

PACKAGING FLEXIBILITY

Potential formats:
drums · IBCs · bags · big bags · bulk.

04

COMMERCIAL TERMS

Possible Incoterms:
FOB · CFR · CIF · EXW.

05

SUPPLY MODELS

Potential: FCL · spot orders · repeat orders · contract supply · samples.

QUALITY ASSURANCE & DOCUMENTATION

QUALITY YOU CAN VERIFY

DOCUMENTATION ISSUED

CERTIFICATE OF ANALYSIS – COA	Batch-specific analytical results.
SAFETY DATA SHEET – SDS / MSDS	Handling, storage and transport safety information.
TECHNICAL DATA SHEET – TDS	Product specification and typical properties.
CERTIFICATE OF ORIGIN	Origin documentation for customs clearance.

CERTIFICATIONS

ISO CERTIFICATION	FOOD-GRADE DOCUMENTATION
ARAB LEAGUE CERTIFICATE	QC TESTING PROCEDURES

Documentation is issued to support incoming inspection, regulatory filing and internal QC processes.

ROHE WAREN

PERFEKTION IST MATERIELL

END-TO-END

GLOBAL SUPPLY CHAIN & LOGISTICS

01

SOURCING

Material sourced from our own production or approved international suppliers.

02

MANUFACTURING

Production at our facilities in Egypt and Saudi Arabia

03

QUALITY CONTROL

Batch testing prior to release.

04

DOCUMENTATION

COA, SDS, TDS and shipping documents issued per consignment.

05

LOGISTICS

Packing, booking and export handling to the agreed Incoterm.

06

CLIENT

Delivery to plant or nominated port, with shipment tracking.

PACKING FORMATS

Drums, IBCs, bags, big bags, bulk.

CONTAINER LOADING

Palletised and floor-loaded FCL shipments.

PORT HANDLING

Export clearance and port coordination.

WHY WORK WITH ROHE WAREN

01

RELIABLE SUPPLY

Consistent availability across our core product lines.

02

COMPETITIVE GLOBAL SOURCING

Own production combined with an international supplier network.

03

TECHNICAL & SPECIFICATION SUPPORT

Product selection matched to your formulation requirements.

04

FLEXIBLE LOGISTICS

Packing and shipping arranged to the agreed commercial terms.

05

QUALITY CONTROL

Batch testing and documentation issued with each shipment.

06

INTERNATIONAL PRESENCE

Offices across Europe, the Middle East, Africa and Asia.

07

LONG-TERM PARTNERSHIP

Repeat and contract supply relationships, not single transactions.

GOVERNANCE

RESPONSIBLE BUSINESS & ETHICAL PRACTICES

Rohe Waren takes pride in the quality of its chemical raw materials and in the integrity of its business practices. We uphold internationally recognised standards of human rights across our operations and supply relationships.

We support fair wages, safe working conditions and opportunities for professional development. Our workplaces are respectful and inclusive, and all employees are entitled to proper compensation and an environment free from exploitation.

HUMAN RIGHTS

Respect for internationally recognised human rights across our operations.

CHILD LABOUR

Strictly prohibited at every stage of our production and supply process.

FAIR EMPLOYMENT

Fair wages, lawful contracts and equal opportunity.

SAFE WORKING CONDITIONS

Health and safety standards applied across our facilities.

BUSINESS CONDUCT

Transparent, lawful and accountable commercial practice.
